As a thought leader in the translation and localization industry, we work with some of the world’s most innovative brands to help them connect with customers across the globe. Our cutting-edge technology, supported by Human Translators, and 350+ LANGUAGES, delivers translation and localization solutions in 350+ languages. Our ISO 27001:2013 and ISO 27701:2019 full certification ensures security and trust for our global clients. For over 25 years, we have helped companies connect with their global customers and employees. Lionbridge partners with brands to break barriers and build bridges all over the world.

With a follow-the-sun production model, 99% ON-TIME delivery, and a trailing 12-month NPS score of 50, we help businesses increase their content velocity, create multimarket customer experiences, and get in front of new customers in more languages than ever before. Our AI-Driven Content Platform captures 25+ years of industry expertise and provides the necessary analytics to scale and reap extraordinary multimarket success.

Whether you need instant translation, a translation platform for teams, or requires customized workflows and technology interfaces, the Lionbridge translation and localization services can help. Our global digital experience assessments dive into your multilingual SEO, and we test the performance, efficacy, readability, and experience of your product, website, software, video, and e-learning content.

Lionbridge is the language cloud. Only the most passionate and curious talent. We look for individuals whose passion is your passion.
